Hi! My name is Steven Fackler and I began gymnastics when I was 5. I progressed through the sport competitively for many years before switching to cheerleading my senior year in high school. I cheered on GymTyme and then University of Louisville to complete my career as an athlete. I began coaching at age 15 and have coached all levels for both sports. I have coached preschool to junior elite level gymnastics and toddler to college level cheer. In my spare time I coach private camps, clinics and do staff trainings all over the region for many gyms. I like to workout, cook and try to catch up on some reading and movies when I have time!
